

Private Foster Care

Become a Foster Parent

Operation Open Arms (OOA) is a private foster care agency in the Commonwealth of Kentucky. OOA needs you! We need loving supportive families who can provide a temporary stable nurturing environment for children in private foster care. Children are placed in the custody of OOA because their parents are incarcerated, homeless or seeking inpatient services. Their parents are working to improve their situation and need your support as you care for their children.

Are you interested in making a difference? Do you feel the need to give back in your community? Have you parented and want to use those skills to serve others? If you answered yes to any of those questions, please contact OOA to learn more about becoming a foster family. OOA offers consultations (to ensure fostering is a positive fit for your family); assessments (to ensure your home is a safe loving home) and training (to ensure you are prepared to foster).

If you become an OOA foster family, you become a member of the OOA family. We want to wrap our arms around you and provide you with the education and support necessary to be the best foster family you can be. Please contact us at administrator@oparms.org. We look forward to hearing from you!

Why Private Foster Care?
